	4 PWM Outputs	basicDIM Wireless PWM CV 4ch	28002575		Current	Datasheet	CBU - PWM4
	2 Channel 0-10v Dimmer	basicDIM Wireless 0-10V 2CH	28002576		Current	Datasheet	CBU - ASR

notes

* bDW module and Casambi CBU-ASD have the following functionality differences:

- No 1-10v dimming function on bDW module (28003540, 28003542)
- 28003540 version has a 10mA power supply whereas CBU-ASD had a 7mA power supply
- 28003540 has an input for a push button which CBU-ASD doesn't have
- CBU - ASD has a relay output but 28003540 / 28003542 doesn't
- 28003540 /28003542 has improved thermal properties
- 28003540 / 28003542 is standard with evolution firmware
