

Remote Emergency Conversion Kit

Pre-Assembled and Pre-Wired

Pre-assembled and pre-wired remote emergency kits from Tridonic Distribution UK Ltd offer an easy emergency conversion option where integral luminaire conversion is not possible.

Offering the same quality Tridonic components that our customers are used to, but pre-wired and pre-assembled for quicker and simpler on-site installation.

- Perfect for on-site installation
- Led shroud included for easy ceiling mounting of indicator lamp
- For LED modules with a forward voltage of 10 to 54v
- Can be used with fixed output or dimmable LED drivers up to 150w
